Full Stack Developer skilled in MERN, React Native, and Shopify development. Experienced in building scalable applications, REST APIs, and responsive UI. Seeking full-time or internship opportunities.

Technical Skills

Languages: JavaScript, Python, C

Frontend: React.js, React Native, HTML5, CSS3

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools: Git, GitHub, VS Code

Core: REST APIs, UI/UX, Responsive Design, Shopify

Experience

Web & App Development Intern

Feb 2026 – May 2026

- Contributed to a pet-focused application in a nutrition-based company, supporting both consumer and provider platforms.
- Designed and implemented 25+ user interface screens across modules such as booking, profile, support, and notifications.
- Developed role-based dashboards for Veterinarian, ParaVet, and Pet Resort with distinct workflows.
- Integrated REST APIs and strengthened application performance while maintaining a consistent user interface.

Projects

Vetician – Pet Service Application (Live on Play Store)

Feb 2026 – May 2026

Tech: React Native, Node.js, MongoDB

- Built a multi-service pet care application with separate consumer and provider applications.
- Created 25+ screens covering grooming, boarding, training, veterinary consultation, and membership features.
- Designed role-specific dashboards for service providers with structured navigation and functionality.
- Implemented core features including booking flow, notifications, calling support, and help modules.

Arveeta – Shopify Jewelry E-commerce Website (Live at Browser)

Feb 2026 – May 2026

Tech: Shopify, Liquid, SEO

- Developed and deployed a Shopify-based jewelry website with over 100 product listings.
- Customized layouts and components using Liquid to enhance design consistency and usability.
- Managed product data including images, descriptions, pricing, and category organization.
- Applied SEO fundamentals to improve search visibility and ensure a responsive user experience.

Additional Projects

- Portfolio Website: Built a personal portfolio to present projects with basic backend connectivity
- Todo Application: Developed a CRUD-based task management system with structured functionality
- Calculator App: Created a responsive calculator interface with clean layout and accurate operations

Education

Bachelor of Science in Computer Engineering

2022 – 2026

Maharshi Dayanand University

Certifications

- Artificial Intelligence – Languify (1stop.ai)
- Python – Pantech E-Learning
- HTML, CSS, JavaScript & React – Great Learning
